This package contains one Space Armada™ cartridge, two control overlays and playing instructions.

SPACE ARMADA™ cartridge

An armada of 32 bomb-dropping, moving targets descend on your defenses. You have a supply of laser guns and bunkers that shield them from the air attack. Shoot your laser and clear the screen. *Another* armada appears and it might surprise you with a new kind of attack! The higher your score, the more challenging the game becomes!

- Challenge a friend to see who can get the highest score or beat your own record.
- Keep moving! Hit and run! Take a two-way electron pair war!
- The better you get, the harder the game becomes. There's no end to the challenge.
- Sound effects let you know when you get a hit or when you're bombed!
- Every time you clear the sky, you get another armada and a tougher challenge.
